

This has have to be one of the best things that was done for us. I hope that you do not take the do not call away. I feel if I want to purchase something or want to subscribe to something, I will call them. I do not need to be called everyday for something that I have no intrest in.

I also don't feel that I should not have to listen to my phone ring off the hook because of the do not call being taking away, answering unwanted phone calls is and hanging up on the person on the other end when I explain to them that I just wish not be be bothered.

I urge you not to drop this program, I am sure it is helpful for me as well as for you .

Thank you very much.
